ENGLAND'S DEMANDS

Nicaragua Must Pay the Indemnity Asked.

ONLY TWO DAYS' TIME GIVEN.

Unless the Terms of the Ultimatum Are Complied With the Port of Corinto Will Be Blockaded—The Customs Offices Seized and the Duties Collected—It May Lead to a General War.

LONDON, April 25.—The foreign office has authorized the Associated Press to state that the news sent out from Corinto, Nicaragua, as to the arrival of three British warships there, the Royal Arthur, Satellite and Wild Swan, for the purpose of pressing the claim of Great Britain for indemnity from Nicaragua for the expulsion of Mr. Hatch, the British consular agent, etc., was correct.

It is added that instructions to the British admiral on the Pacific station were sent some time ago to insist upon Nicaragua's compliance with the terms of the ultimatum of Great Britain, or, failing such compliance, to blockade the port of Corinto and seize the customs officers within two days after, and thus enforce satisfaction from Nicaragua for the insolent manner in which British subjects have been treated there.

Corinto is the best port of the Central American states on the Pacific coast. It is the most important to Nicaragua as it is the terminal of the line of the Central railroad. It is a very old place and was formerly called Ralejo. This was one of the best Spanish-American harbors in the old days, but it is becoming filled up and is now somewhat smaller, as to anchorage. There is no difficulty, however, in the entrance, and there is a depth of 18 feet of water in the harbor at low tide. Between the island of Cardon and the point of Castanones there is a dangerous bar.

The port of San Juan Del Sur has a harbor of average size and there is sufficiently good anchorage. It is filling with sand, however, and the entrance is becoming choked, making shipping more difficult. San Juan Del Sur is in communication with Lake Nicaragua by a macadam road built by the New York and California Transit company.

Corinto is the heaviest import point in Nicaragua. The imports there for 1891-92 were \$6,086,805, while all imports to other points did not exceed \$500,000. It is evident from this why the British chose Corinto for their strike. Almost one-half of the imports at Corinto are from Great Britain, so that the British seizure of the customs houses will result in their receiving the customs dues from British merchant ships. The British imports for 1891-92 were \$2,132,001; those of the United States come second at \$1,497,070; Germany, \$1,042,055; France, \$908,144. The rest of the import trade was with neighboring South and Central American countries.

The imports of San Juan Del Sur were \$135,820. As the Corinto imports average about \$500,000 monthly, it would not take long for Great Britain to appropriate the \$75,000 indemnity demanded.

The tariff rates of Nicaragua are such that the \$6,086,805 of imports in 1891 yielded \$1,058,913 in customs duties. Most of this was collected at Corinto. At this rate the receipts at Corinto would reach \$75,000 within 30 days unless commerce was diverted to other ports.

It is a significant fact that the largest part of Nicaragua's foreign debt is represented by bonds held in London and payable there in 1919. This foreign debt aggregates \$2,103,227. The London holders have thus far received their interest on the bonds very promptly. If, however, Nicaragua is crippled by the seizure of her customs receipts it may react by a failure to meet the interest on the bonds held in London.

The diplomatic representatives of the Central and South American republics are very much disturbed by this late feature of the case (the meeting of bond obligations), for they fear that it opens a vista of endless trouble and aggression in the future. Their idea is that once Great Britain has been permitted without interference to collect this special indemnity, she will avail herself of the excuse offered by the failure of Nicaragua to meet her interest payments on foreign debt to assume the task of collecting this forcibly in the same manner, notwithstanding the fact that the failure may be brought about by her own seizure of the custom receipts which were to be applied to the payment of this interest.

Of course this would necessitate the occupation of Corinto after the original indemnity shall have been collected, which would only add to the financial distress of Nicaragua, and should she be then unable, as seems likely, to meet this last demand, the occupation may be prolonged so indefinitely as to amount to a permanent occupation of the territory. This is the reasoning of the South Americans, and they find individual cause for apprehension in the fact that almost all of these little republics owe sums of money to European bondholders on account of interest or principal of national debts, and they fear that for the first time the principal may be laid down and enforced, that a European government may assume the collection of debts owing to its citizens as individuals and not to the European nation, a doctrine which they assert would be particularly obnoxious if applied to some of the states of the American Union which have defaulted in their debts to foreign bondholders.

The outcome of this Nicaraguan in-

cident is also rest by the same diplomats to be full of significance to Venezuela, and it is feared by them that having once driven in the wedge, Great Britain can scarcely be expected to refrain from pressing forward with very vigorous measures in the matter of the Venezuelan boundary dispute and at once establishing herself as the mistress of the Orinoco.

It is felt here that the present situation is one justifying apprehension and anxiety on the part of our own government. While it is not expected that the Nicaraguan government will offer any armed resistance to the landing of the British forces, still it is feared that during the time the town of Corinto is occupied by the foreigners, the natives may be restrained with difficulty, and the close contact into which the two discordant elements will certainly be brought might at any moment lead to an outbreak winding up in a general war.

The tenure of the present Nicaraguan government is none too secure, and it is felt that it would be expecting almost too much from it to hope that it could resist successfully an impulse of the people toward war, then should the cause be without probable success for their side in the end.

It is evident that our state department has not lost sight of this possibility, for Secretary Gresham has been in consultation with the president and Nicaraguan minister on the subject, and it is believed that he has been using his best efforts to prevent a resort to extremes by intimating that the indemnity had better be paid.

NITROGLYCERIN EXPLOSION.

Building Completely Demolished but Fortunately No One Killed.

LIMA, O., April 25.—The most serious explosion since the location of the Ohio and Indiana Torpedo company's factory, three miles southwest of the city, occurred yesterday and was caused by nitroglycerin taking fire while it was being run.

The makers of the stuff, H. Easton and A. M. Underwood, had finished their sixth run of the explosive, and were sitting in the factory eating their dinner, when Easton detected fire in the hose connecting some of the apparatus.

He called to Underwood, and they ran for their lives. The factory is located along the C. & E. railroad tracks, and a freight train was coming toward the factory. Easton ran down the track and succeeded in stopping the train, while Underwood ran in the opposite direction and headed off a farmer who was coming to do some plowing just below the factory.

The men barely had time to accomplish this, when the contents of the building, several tons of glycerine, let go. The building was blown into fragments, and the timbers and heavy machinery scattered in all directions. A large hole, 50 feet deep and 100 in diameter, was torn in the earth. At the Solar oil refinery, a mile and a half away, nearly all the windows were broken.

The factory which went up yesterday belonged to the same company whose factory blew up a couple of years ago, and was located near the same spot. At that time Andrew Chute was blown to fragments, and Ben Dow and Tom McHugh badly hurt. They were makers of the explosive. G. R. Potter, a teacher near the place, escaped without a scratch.

WANTED TO KILL HIS WIFE.

Ketcham, the Express Robber, Creates a Scene in a Kansas City Court.

KANSAS CITY, April 25.—Considerable of a sensation was caused in the law offices of Fox and Moore yesterday afternoon while Mrs. Charles A. Ketcham, wife of the man suspected of robbing the Adams Express company of \$35,000 in 1892, was given her deposition in the matter of the robbery. Ketcham, who was under the influence of liquor, forced his way into the office and would have killed his wife had he not been overpowered and thrown to the floor, where he was pinioned, and then taken to the police station.

The Wells-Fargo Express company, which was the original carrier of the two packages containing \$35,000 stolen from the Adams Express company between Cincinnati and New Orleans, sued the latter company to recover the amount which it (the Wells-Fargo) had made good to the shipper. Compromise negotiations were proceeding and Mrs. Ketcham's deposition had just been read to her, preparatory to her signing it. The paper not only charged Ketcham, who was the messenger of the Adams Express company when the robbery occurred, with the robbery, but entered into details as to the manner in which the robbery was committed and the money concealed.

Ketcham received an inkling of his wife's deposition and it was to prevent her signing the document that he tried to kill her. The suit of the Wells-Fargo company is to be withdrawn and the Adams company agrees to some compromise, the terms of which are not known here, final settlement having been made in St. Louis.

Killed by Horses.

MORRISTOWN, Ind., April 25.—G. W. Yager, the Mascon mailcarrier and hack driver, stopped at Cynthia's while on his way to Shelbyville, and his team got frightened. They started to run, and in attempting to stop them he received internal injuries, which caused his death.

Struck by a Handcar.

MARTIN'S FERRY, O., April 25.—James Gray, a sectionhand on the Cleveland, Lorain and Wheeling railroad, was thrown from a handcar, run over and badly hurt.

IS THE WAR ENDED?

Some Doubts About the China-Japan Settlement.

THREE POWERS NOT SATISFIED.

Russia, Germany and France Acting Very Menacing—Russia Formally Notifies Japan That the Peace Treaty Can Not Be Put Into Execution—Opinions of the Officials at Washington.

WASHINGTON, April 25.—The Japanese officials here are disposed to treat lightly the reports from European capitals as to trouble over the China-Japan settlement. Minister Kurino is satisfied all will be amicably arranged, if, as he jokingly expressed it, "a temporary armistice of the European press reports can be arranged."

In other official quarters, however, there is considerable apprehension at the menacing attitude of Russia, Germany and France. The report that Russia had instructed her ambassador at Peking to demand a cession of territory for a harbor on the Pacific, confirms the view that Washington diplomats have long held that Russia would obtain Port Lazareff before the negotiations ended. A prominent diplomat who has visited Port Lazareff says it is a superb harbor, and will give Russia one of the finest naval stations on the Pacific.

The cables fail to bring out the fact, however, that Port Lazareff is in Corea, not China, so that the Russian demand while primarily made on China, must also be made to Japan, and to Corea if the latter's independence is recognized.

The failure of England to join in the menacing action of other European powers is explained by the fact that England already has her Asiatic possessions and Pacific naval stations.

America and England to Co-Operate.

LONDON, April 25.—Sir Henry Glynth, M. P., a well known authority on eastern affairs, has written a letter to The Times urging Great Britain to take counsel with America to formulate a common policy in the Chinese seas. Great Britain and America, he says, have no political rivalries there, and their co-operation may ripen into results that would be beneficial to both in other difficulties elsewhere.

Commerce Demand No Interference.

LONDON, April 25.—In a leader The Daily News says: "The protest of the powers to Japan risks delaying a settlement for which the commerce of the whole world is hoping. Nothing will be gained that is worth even the remote risk of war. We trust that it is not policy of any other powers to go beyond persuasion."

Secret Concessions Made.

LONDON, April 25.—A dispatch from Berlin to The Times says that the St. Petersburg correspondent of the Frankfurter Zeitung declares that it is firmly believed in the Russian capital that Japan has made considerable secret concessions to Great Britain.

Russia Formally Protests.

ST. PETERSBURG, April 25.—The government has sent a note to Japan intimating that there are various conditions to the treaty of peace between Japan and China that Russia can not allow to be put into execution.

OIL STEADY.

New Wells Has the Effect of Keeping Down the Price.

STREUBENVILLE, O., April 25.—Much oil excitement prevails here. McConnell well No. 2, in the Goulds field, was shot and in 24 hours produced 132 barrels. It is now claimed that this field will be a good one. There are now 20 producers in the field out in the western part of the county.

At Lima, O., there was no change in the price of oil and there is more confidence in the belief that the price will remain to the dollar mark.

At Portland, Ind., a monster well has just been shot 11 miles from here on the White lease. The well spouted oil and was a hard one to shut in.

No Change in Price.

PITTSBURG, April 25.—The price posted by the Standard Oil company is \$2.10 for Pennsylvania crude oil, the same as for the last two days. The speculative market here and Oil City is firm, with offerings at \$2.10.

M'BRIE EXONERATED.

The American Federation of Labor Decides Against Mark Wilde.

INDIANAPOLIS, April 25.—The executive council of the American Federation of Labor completed its work yesterday afternoon, the members leaving for home in the evening. A resolution was adopted exonerating President McBride from the charge made against him by Mark Wilde, president of the Columbus Trades Assembly, but at the request of Mr. McBride a member of the council will be sent to Columbus to investigate there.

Wild claimed that McBride betrayed the American Railway union in the settlement of the strike and that he had been bought to keep quiet. The whole matter was fully explained to the council and the decision was the same that was given to the charge by the national convention. The drafting of proposed laws was left to President McBride and Secretary McGrath.

General Cogswell Better.

WASHINGTON, April 25.—General Cogswell passed a very comfortable night and is reported better. The condition of Mr. Hitt is about the same.

NEW DISCOVERY.

Third Day's Evidence Produced in the Durant Examination.

SAN FRANCISCO, April 25.—Durant passed a quiet night, and when he entered Judge Conlon's courtroom he appeared refreshed, and was as self-composed as ever. He conversed with his attorneys earnestly.

Mrs. Amelia Voy testified that Miss Williams came to her house on the afternoon of the murder, and left about 8 o'clock alone. Mrs. Voy was not allowed to tell where Miss Williams was going. Mrs. Voy identified the clothes worn by the dead girl when she left the house, and which were found on the murdered girl.

Adolph Hobs of Oakland testified that he had seen Durant at the ferry April 12 in company with a young lady smaller than himself. She wore a cape.

Dr. Gibson, the next witness, said he had seen Durant Good Friday night at the Christian Endeavor meeting at Dr. Vogel's home. He thought Durant came to the meeting about 9:30 o'clock, after the conclusion of the business meeting. Durant remained until the party broke up. Witness had seen Durant alone in the library of the church on March 17. Witness was at the church on the morning that the body of Miss Williams was found. He heard a noise in the church, but did not investigate. He saw Miss Williams for the last time to his certain knowledge March 2 in the Sunday school room, when she told him she was going away and bid him goodbye.

A new witness in Dennis Welsh, an Alameda policeman, said he saw Durant and Miss Williams together in Alameda on several occasions about two weeks prior to the discovery of the young lady's body in the church.

A new discovery in the Durant case has been made. When the body of Miss Williams was found in Emanuel church, in searching for traces of the murderer, the police and reporters found a dark stain on the door of Rev. Dr. Gibson's private study to which he only, so far as known, had a key. The police decided the stain was most varnish, and have paid no further attention to it. Yesterday, however, an Examiner reporter shaved off a portion of the supposed varnish stain and a microscopic examination showed it was blood instead of varnish. The mark on the door looked as if it had been caused by flinging a wet cloth against it, and was about 18 inches from the floor. The supposition is that the murderer, in going into the study or attempting to enter it, brushed his bloody clothes against the door and left the stain.

STRONG COMBINATION.

Jilted, Moneyless and a Stranger in a Strange Land.

CHICAGO, April 25.—Jilted by the girl he loved and despondent because he was without money or friends in America, Ludwig Grossman, an ex-lieutenant in the Austrian army, ended his life late Tuesday night, in his room in the Niagara House. Shortly before the body was discovered, the odor of gas was noticed coming from Grossman's room. The door was forced open and Grossman was found lying on the bed, and near his mouth a rubber tube attached to the gas jet.

Grossman had only been in this country since Jan. 20, and went to the Niagara House two weeks ago. A passport, issued by the Austrian government, and 11 cents were the only property found in his possession. His home is Prague, Bohemia. Grossman was engaged to be married to a young woman who lived in Prague. He went into the army when he was 21 but when he came home he found the young woman had married another man. To forget his misery he sailed for America, but he had no friends here and could get no employment.

Walked Over Ten Thousand Miles.

LITTLE ROCK, April 25.—Senor Louis Budenwitsch and Senor Antonio Ben, two citizens of Argentine Republic, who are making an overland trip for their government from Buenos Ayres to Chicago, arrived here yesterday, having walked the entire distance, 10,145 miles. They left Buenos Ayres at 10 o'clock Aug. 7, 1892, and have been walking ever since. They will publish a report for their government on topography and mining.

Forest Fire Raging.

LAKEWOOD, N. J., April 25.—A forest fire covering six square miles and consuming valuable pine timber is raging about two miles southeast of this place. A gang of laborers have been sent to keep the fire from spreading. The fire is gaining steadily, however, owing to the high winds. This place is filled with smoke and the roaring of the flames can easily be heard.

Liberty at Last.

LEXINGTON, Ky., April 25.—William Shields, charged with the murder of Pat Hannon, in this city, three years ago, was given his liberty last night at 8 o'clock. Hannon came into Shields' store and began abusing him. Shields took down his shotgun and blew his head off. The case hung in the courts ever since. Three juries disagreed. The fourth returning a verdict of not guilty. The wife of the murdered man fainted when the verdict was rendered.

STEAMER FROM CUBA

Spanish Minister to Washington Was on Board.

HIS OPINION OF THE REBELLION.

He Says It Was Never of Much Importance and Will Soon Be Suppressed—Excellent Dying Out—Campos Accomplishing Some Great Work—General Maceo Not Dead, It Was His Brother.

NEW YORK, April 25.—The Spanish steamer Panama arrived at quarantine at 8:30 p. m. Among the passengers is M. Dupuy de Lome, the Spanish minister to Washington. He said:

"The excitement caused by the troubles in Cuba is dying out. Captain General Martinez de Campos will arrive in Havana in a few days after his return from the affected districts, where he is visiting to suppress any disorders that may arise. The alleged insurrection is confined chiefly to negroes, the whites not taking an active part."

Campos' Great Work.

HAVANA, April 25.—Captain General Martinez de Campos is displaying extraordinary activity in visiting different places on the island. Yesterday he was at Gibara, on the north coast of the province of Santiago de Cuba, whence he proceeded on an express train to Holguin. Early yesterday morning he arrived at Nuevitas, province of Puerto Principe, and at 11 o'clock he was at the city of Puerto Principe. In the afternoon he returned to Nuevitas.

General Maceo Not Dead.

NEW YORK, April 25.—A special dispatch to The World from Santiago de Cuba says: It was not the body of General Antonio Maceo after all that was found not far from the place where his troops were defeated near Palamito, back of Guantanamo. It proves to be the body of his brother, Jose Maceo, who was a subordinate officer in the expedition. Jose died of wounds received in the battle. At the same time Adjutant Frank Agrante and 14 others were taken prisoners.

Captain Miranda, a Spanish officer, was killed in an engagement with insurgents last Sunday at Ramon Juagas, about 40 miles west of Santiago.

Insurgents Again Lose.

MADRID, April 25.—The government has received an official dispatch from Havana confirming the announcement that General Bosch had defeated the insurgents near Grayabel, killing 10 and wounding many of them and capturing a quantity of their arms and ammunition.

TRAGEDY IN A COURTROOM.

Bitter Feud Between Families Leads to a Murder.

COLUMBIA, S. C., April 25.—John C. Swearingen, a brother-in-law of Senator Tillman and ex-Congressman George Tillman, was killed in Edgefield county yesterday by B. L. Jones. They met in a trial justice's office, where Jones' son was to be tried on a charge preferred by Swearingen. Jones and Swearingen are connected by marriage, but there has been a bitter feud between their families for some time.

Jones' son gave Swearingen the lie and his father backed him up. Both men drew their pistols simultaneously. Jones emptied every chamber of his weapon, putting four balls into Swearingen, who lived only a few minutes after being wounded. Swearingen fired one shot, which did no damage. Jones has been jailed.

ATTEMPT TO WRECK A TRAIN.

Dummy Car and Ties Filled on the Big Four Track.

LAPORTE, Ind., April 25.—Bold attempts were made Tuesday night to wreck a southbound passenger train on the Michigan division of the Big Four at two different points between Niles and Benton Harbor.

The engine first struck a "dummy" car, which had been placed on the track, and when near Sodus the train ran into a pile of ties, and but for the prompt action of the engineer, the coaches, which were filled with passengers, would have been precipitated into a deep gulley. A serious wreck and loss of life would have resulted. Certain men are under suspicion, and a thorough investigation will be made.

Four Men Injured.

CLEVELAND, April 25.—An elevator in a new building being constructed fell three stories, a distance of 60 feet, yesterday. Four men were in the car, and all were more or less injured as follows: Alexander Dombroski, back and hip crushed; Charles L. Hubbard, leg broken and back badly injured; Fred Bundy, ankle broken and internal injuries; and Albert Lawrence, ankle sprained. The elevator had just been put in and started. The safety device failed to work.

Who Shot Him?

ELWOOD, Ind., April 25.—Another effort is being made to secure the pardon of Isaac Goodman, who was sent to the penitentiary for seven years for connection with the Goodman gang of robbers, of which his son, Dick, was chief. There is no doubt as to his being guilty and Governor Matthews will probably release him.

Won't Weaken the Bank.

WASHINGTON, April 25.—Comptroller Eekels said that the discovered shortage in the Merchants and Farmers' National bank of Charlotte, N. C., would not affect the solvency of the bank so far as he had been advised. The arrest of the cashier had been in accordance with his instructions.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

THURSDAY, APRIL 2, 1896.

The 1,500 employees of the Slater Woollen Company, of Massachusetts, are the latest women operatives to receive notice of an increase of wages. Democratic free wool is getting in its work.

Free wool would paralyze the woolen industry of this country, was the cry of the Republicans a year or so ago. But the woolen manufacturers like it so well that they are increasing the wages of their employees right along.

The imports of general merchandise at New York last week were \$3,000,000, greater than the receipts for the corresponding period a year ago. The demand for such goods must be increasing, and that means that business is improving.

The Republican State Central Committee met at Danville this week to straighten out the mess Boss Bradley got them in some time ago. They changed the date of the State convention from May 29th to June 5th, so as not to interfere with Decoration Day. All is now lovely, Bradley imagines, in the G. A. R. ranks.

COLONEL W. O. BRADLEY has had himself interviewed some more, this time by the Cincinnati Tribune. The renegade Democrat who is bossing the Republicans of Kentucky still imagines the people of the State are going to elect him Governor. He failed to tell the Tribune that he went over to the G. O. P. to get the office of County Attorney, and that he has been asking the Republicans for office ever since.

Notice to Horsemen.

Mr. J. F. Walton of Evergreen Stock Farm, Germantown, Ky., has reduced the service fee of King LeGrand from \$15 to \$10, to suit the times. Persons desiring to breed to a good horse will make no mistake in breeding to King LeGrand.

Not Competent to Govern.

Louisville Post: "The Republicans in Kentucky are responding, as they always have done, to the crack of the whip wielded by their bosses, and are declaring almost unanimously that W. O. Bradley is the Moses to lead them from the house of bondage into the promised land via the offices at Frankfort. The Republicans evidently need still greater discipline before they will be competent to govern the great State of Kentucky, or to govern themselves."

John R. Crawford to John W. Crawford, grantor's interest in 82½ acres on Bull Creek; consideration, \$200.

"Our Homes."

This is the subject of a charming lecture which will be delivered at the First Baptist Church, Friday evening, April 26th, by the Rev. Carter Helm Jones, the eloquent pastor of the McFerran Memorial Baptist Church of Louisville, Ky. Of this lecture the Knoxville Tribune says:

The beautiful lecture upon "Our Homes," by the Rev. Carter Helm Jones on Tuesday night at the opera house was an intellectual effort of great brilliance. It was replete with jewels of eloquence, bright witticisms, poetic passages and strongly painted word pictures. Those who were so fortunate as to be present felt that their inmost hearts were touched and their best emotions stirred by the utterances of this talented young divine.

The lecture will be under the auspices of the Young People's Union of the Baptist Church, and the admission is only 25 cents.

Miss Sadie Hickey, who had been a patient sufferer for several months, breathed her last at 7 o'clock this morning, at the home of her mother, Mrs. James Hickey, on January street, after being fortified with all the sacraments of her holy religion.

She was a most devout Christian young lady who had edified her friends and acquaintances by her many virtues.

Though young in years, being twenty years of age, she bore her sufferings with the Christian fortitude characteristic of an old and faithful follower of the Divine Master.

The C. and O.'s New Southeastern Passenger Agent.

Thomas A. Garrigan, who for many years has been closely identified in this section with the passenger business to the West, Northwest and Southwest, has accepted the position of Southeastern Passenger Agent with the Chesapeake and Ohio and Big Four railways. His headquarters will be at Huntington, W. Va.

Tom has long been known as the most successful passenger agent in this part of the country, and his success can be attributed principally to the fact that he has worked especially in the interest of the traveling public and has given them lower rates and taken better care of them than any one else could do. Situated as he now is, he can take care of the persons interested when they are traveling in any direction. Drop him a line at Huntington.

The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

KENTUCKY CROPS.

Weekly Report of the Weather Bureau on the Outlook in This State.

The weather conditions during the first half of the week were not favorable to the advancement of vegetation, though no injurious effects are reported. There was a deficiency in sunshine and temperature, some few localities reporting light frosts, from which, however, no injury resulted.

The latter half of the week, especially Saturday and Sunday, gave a considerable excess of temperature and sunshine, from which crops and vegetation generally were greatly benefited. Except for the heavy showers which prevailed throughout the northern, western and central parts of the State on the night of the 16th, the week was generally dry, only a few scattered showers being reported.

The general effect of the above described conditions was to advance vegetation slightly forward from the stage reported last week. The season is still backward, but with this exception the general outlook is favorable. All farm work is well along, the weather conditions having offered little or no obstacle to its progress.

The cool, cloudy weather has favored the propagation of cut worms, and the damage from them is reported to be serious in many counties, especially Ballard, Spencer, Trigg, Logan, Simpson, Daviess, McLean counties, and in the western half of the State generally. In Trigg, Muhlenberg, Warren and Todd counties the army worm has made its appearance, and in many localities farmers are ditching to save their crops from its ravages.

Corn planting has made quite steady progress during the week. About three-fourths of the crop has been planted in the central counties.

But little progress has been made in corn planting in the extreme eastern counties.

Reports regarding wheat continue to be favorable, especially those received from the central counties.

Oats are coming up nicely, and the outlook for a crop is very good.

Tobacco plants look well except in those sections where cut worms have appeared. From present indications there will be an abundance of plants when the time for setting arrives.

Pastures and grass lands have improved greatly. Clover is in good condition generally. Garden stuff is growing nicely.

As the season advances, it becomes more apparent that there will be practically no peaches in Kentucky this year. Some good blooms are reported from the southern tier counties, but only scattering ones from other sections of the State. The outlook is for an abundant crop of apples and a fair one of pears in most localities. Smaller fruits promise a fair crop.

A period of decidedly warmer weather with occasional showers is most needed at present for the progress of all crops.

A New York doctor gave a prescription calling for "Ol Ricini" (castor oil). The druggist filling the prescription gave "Ol Pini" (turpentine). A baby was given the medicine and died from the effects of the wrong medicine. Would it not be safer if doctors wrote their prescriptions in plain English? inquires the Ripley Bee. Certainly and more sensible.

The grand jury of Pendleton County has indicted a man for carrying weapons, it having appeared that he carried the cylinder of a revolver in his hand and the remainder of the weapon in his pocket while taking it to a shop for repairs. The Pendleton County Democrat advises the people to carry their pistols in wheelbarrows in order to escape indictment. A better plan: Leave them at home or throw them away.

THE Cincinnati Enquirer reports a decided improvement in business. Traveling men representing Queen City houses were interviewed and they all speak encouragingly. The Enquirer says: "Thos. M. Porter, who visits the larger towns of Kentucky in the interest of the Stix dry goods house, finds business much better than at any time in the last two years. So far this season his sales show an increase of 25 per cent. over those made in the same period and territory last year. He did a remarkably fine business at Maysville, Ky., and, though back but a few days from that enterprising town, is already getting many re-orders by mail—one of the best signs of the early arrival of better times."

Motion to Dissolve the Restraining Order—Fiscal Court to Meet Part of Lexington Road Sold.

The attorneys for the defense in the suit of Mr. C. B. Pearce to enjoin the collection of the free turnpike tax have given notice that they will on Tuesday, May 7th, move to dissolve the temporary restraining order. Judge Harbeson will be here on the date named to hear the motion.

Next Monday, April 29th, at 10:30 o'clock, is the time fixed for the court to convene.

The BULLETIN announced yesterday that the Fiscal Court of Fayette County had been negotiating with the Maysville and Lexington Turnpike Company for the purchase of that part of the road lying in Fayette,—eight miles,—and that Colonel Baldwin had gone to Lexington on matters connected with the deal. A telegram from the Colonel yesterday afternoon stated that the sale had been closed at the price announced,—\$25,000.

This is for the entire interest of the company in the eight miles. The State owns part of the stock. The money is to be paid as soon as the necessary legislation is passed.

The building will be erected at once, and it is proposed to establish branches in a number of counties of Eastern Kentucky, including Clay, Perry, Harlan and Knott. The matter is of great interest to Methodists all over the State, and will be the means of educating a large portion of Eastern Kentucky.

Prof. Dickey formerly had charge of the M. E. Church, South, at Washington, and is an indefatigable worker in the cause of religion and education.

THE question recently arose whether, under the new statute, the State Guard was entitled to the money that the State recovers from time to time from the Federal Government on the old war claims. Attorney General Hendrick comparing the statute with that of 1878, which dedicated such funds to the use of the State militia, found the same language used and evidently the same intention. He decided Monday that the money so received from the Federal Government was justly due the State militia, there not being enough funds otherwise provided to support the militia. Acting upon the opinion of the Attorney General, the Auditor issued the Adjutant General a warrant for \$10,000 at once, and \$4,000 more will be available for the same purpose in a short time.

NIGHT OPERATOR HELD UP.

His Valuable Taken and the Station Robbed.

FORT WAYNE, April 25.—One of the most daring pieces of criminal work ever committed in Allen county was accomplished at 3 o'clock yesterday morning at Dniffe, a station a few miles west of this city, on the Nickel Plate road.

At that time O. S. Smith, the night operator and ticket agent, was working at his telegraph instrument receiving train orders. Smith had just put out the signals for a freight train to stop. The train was about a mile away, when three masked men, each carrying a revolver, entered the small office.

The lender said: "I am going to change your train signals and let that freight go through without stopping. You telegraph the change in signals at once, and don't send another word, or I'll blow your brains out. I'll hear your message, and if you don't break it there I'll shoot your head off."

As the freight train went by the three men seized Smith, took \$50 from his pockets, tore his diamond scarfpin from his necktie, robbed the ticket office of money and seized every article of value in sight.

Sheriff Clausmeier says the three men were railroaders, as they knew all the train signals, knew all about train orders, and one of them understood telegraphing train orders. The officers are still on the trail, and have the country for several miles around the scene of the robbery covered.

KENTUCKY FEUD.

The Lynching at Mount Sterling Likely to Break Out New.

MOUNT STERLING, Ky., April 25.—The Blair lynching trouble is liable to break out at any moment. After Forman and Roach were acquitted James and Jesse Blair, brothers of Tom Blair, who was lynched, went to their home in Morgan county. Yesterday they returned and with them were three friends. All day long they paraded the city in a body, but what their object is nobody knows. The police are on the alert and if the Blair brothers make the slightest demonstration there will be a bloody fight.

The best citizens of the city are trying to keep down any trouble. But the Blairs are desperate over the awful murder of their brother, and if they can settle on the lynchers some one is bound to be killed. Morgan county people do not believe Roach and Forman were guilty of murdering Blair, but they are determined to find out who did, and until that is found out and the murderer punished there will be an enmity between the two counties.
